SHEAR WALL IMPLEMENTATION METHODE IN GEREJA KEMAH TABERNAKEL (GKT) PANTAI INDAH KAPUK 2 PROJECT

Camp Church Construction Project (GKT) Pantai Indah Kapuk 2 is a place for inttership by students of University Pembangunan Jaya. This intership acticity is expected by students to be able to apply the knowledge that has been obtained from the field and campus directly in the construction. The practice focuses on choosing the discussion of shear wall on the Pantai Indah Kapuk 2 Tabernacle Camp Chruch Project (GKT) with contractor PT.Rekagunatek Persada as a place to carry out professional work report with the title of the method of implementing the shear wall on the construction of the Tabernacle Camp Church (GKT) Pantai Indah Kapuk 2. Report data is carried out by observastion, field practice, supervisor, interviews, documentation, and literature studies.

Keywords: *Kerja Profesi Course, Gereja Kemah Tabernakel (GKT) Pantai Indah Kapuk 2, Implementation Methode, Shear Wall*
