IMPLEMENTATION OF MANAGEMENT CONTROL SYSTEM IN SMK BINA BANGSA LIBRARY

Professional work is an activity that can provide students with an overview and experience directly about the reality of the world of work. Students can apply the material that has been learned in lectures and know the real conditions of the world of work through this activity. Practitioners do Professional Work in the SMK Bina Bangsa library in the service sector. The service section has the task of processing borrowing and returning library books and providing information about references quickly and precisely, as well as guidance on collections and facilities in the library. The implementation of the management control system carried out in the SMK Bina Bangsa library is quite good. Management control activities carried out by the SMK Bina Bangsa library are making library work programs, preparing library budgets, dividing the duties of each field in the library, to evaluating and reporting library performance at the end of the school year.
