ANALYSIS OF RECEIVABLES TRANSACTIONS FOR INSURANCE CLAIM AT BUAH HATI CIPUTAT HOSPITAL

Buah Hati Ciputat Hospital is a healthcare institution specializing in the fields of obstetrics and gynecology, pediatric care, and various other specialized healthcare services. It serves as the chosen location for professionals to carry out their professional work. Interns are placed in the Finance Division, where their activities include summarizing data on insurance claims for outpatient and inpatient care, creating invoices for the sale of insurance claims data, and filing documents. The interns perform these tasks using the Accurate system. During the internship, they gained new insights and experiences while carrying out their professional duties at Buah Hati Ciputat Hospital.
