*DESCRIPTION OF WORK ACTIVITIES AS DAMAGED GOODS ANALYSIS
IN PT.Y INVENTORY CONTROL DIVISION.*

Professional Work (KP) is an activity that aims to provide an overview of the world of work and a means to apply the theory and knowledge that has been learned during college. Professional Work is one of the main prerequisites for students to complete their undergraduate studies. Professional work in the field of damaged goods analysis in the inventory control division involves analyzing and managing damaged goods in the organization's inventory. This professional is responsible for identifying, assessing, and documenting damaged items, as well as implementing strategies to minimize damage and improve inventory control processes. The main objective of this job is to ensure damaged items are properly identified, recorded, and managed to minimize financial losses and maintain accurate inventory records. This includes conducting regular inspections, analyzing trends and patterns of damaged items, and implementing preventive measures to reduce the occurrence of damage.

Keywords: Professional Work, Damaged Goods Analysis, Inventory.
