This research aims to determine and analyze the influence of capital adequacy, liquidity and credit risk on financial performance in conventional banking in 2018-2022. This research uses a quantitative approach. The population in this research is all conventional commercial banks on the Indonesia Stock Exchange in 2018-2022. Sampling in this study used a purposive sampling technique. The data source used in this research is secondary data and uses multiple linear regression data analysis. The research results show that capital adequacy influences financial performance, liquidity influences financial performance, credit risk influences financial performance and Capital Adequacy, Liquidity and Credit Risk simultaneously influence financial performance.

Keywords: *Capital Adequacy, Liquidity, Credit Risk and Financial Performance*
