APPLICATION OF THE ACCOUNTING INFORMATION SYSTEM ON THE BCA CLICK SYSTEM: INTERNET BANKING (INDIVIDUAL)

While carrying out professional work at PT Bank Central Asia Gading Serpong, interns work under the supervision and guidance of the Head Teller and Head of BCA Priorities. In professional work, practitioners have the opportunity to help and be directly involved in carrying out transaction input work carried out by BCA customers, starting from cash withdrawals, cash deposits, book transfers, foreign currency transactions, and money transfers to other banks. In the input process, the practitioner has received a slip which has been completed by the customer, so that the transaction can be carried out immediately. However, in the current digital era, BCA has provided facilities to loyal BCA customers, namely Klik-BCA Individual. where customers can carry out transactions anywhere and anytime.

Keywords : *Cash Withdrawal transaction input; Cash deposit; Book Transfer; Foreign Currency Transactions; Sending Money to Other Banks, Individual BCA Click Facilities, Transactions Anywhere and Anytime*
