Occupational Activities of Inclusive Facilitators at Bintaro Nature School

Sekolah Alam Bintaro is an educational institution committed to providing an inclusive and nature-based learning environment for students from various backgrounds. Located in the Bintaro area, this school offers holistic education that integrates academic learning, life skills, and environmental awareness. With an approach focused on direct experience and nature exploration, Sekolah Alam Bintaro promotes active learning and student engagement in the learning process. A curriculum tailored to individual needs allows each student to develop optimally according to their interests, talents, and potential.

Sekolah Alam Bintaro also emphasizes the importance of inclusion as one of its core values, providing the necessary support for students with special needs to achieve academic and social success. Through close collaboration between teachers, students, and parents, the school strives to create a welcoming, supportive, and motivating environment for all members. With a commitment to sustainable learning and character development, Sekolah Alam Bintaro aims not only to create academically intelligent students but also global citizens who are caring, responsible, and ready to face future challenges.

Keywords: Inclusive facilitator, special needs, environmental awareness
