PROFESSIONAL WORK ACTIVITIES IN SUPPLY CHAIN MANAGEMENT AT PT SATRIA ALAM MANUNGGAL

The Professional Work Program (KERJA PROFESI) is part of the curriculum of Universitas Pembangunan Jaya designed to provide practical experience to interns in fields relevant to their majors, as preparation for entering the workforce. During the implementation period, interns have the opportunity to carry out work processes in Supply chain management Management at PT Satria Alam Manunggal (SAM), which operates in Kalimantan Selatan and Kalimantan Tengah and has been in operation since 2006 in the sectors of Heavy Equipment Rental and General Contractor. Work activities in Supply chain management Management include Purchasing Division, Divisi Stock Control, and Warehouse Storage. In the Purchasing Division, interns are responsible for supporting logistic needs for operational activities at job sites and head offices. Then, in the Divisi Stock Control Division, interns are responsible for controlling inventory owned by the company. Next, in the Warehouse Storage Division, interns are responsible for receiving and checking goods sent by vendors, and then forwarding these goods to job sites using expedition trucks. By directly participating in these three divisions, interns gain new experiences that will be useful in the workforce.

Keywords: Professional Work, Supply Chain Management, Purchasing Division, Stock Control Division, Warehouse Storage, Heavy Equipment Rental, General Contractor.
