PROFESSIONAL WORK ACTIVITIES IN THE DATA PROCESSING PROGRAM SECTION AT PT. CAHAYA TERANG SAMUDERA

Practitioners are given the opportunity to do professional work at PT Cahaya Cahaya Samudera, professional work is carried out for approximately 3 months. In carrying out professional work, practitioners have the opportunity to participate in making cylinder suitability certificates, preparing the conditions needed to check the suitability of APAR cylinders, and recording ship entry. Some examples of the results of practitioners making certificates of suitability for APAR cylinders are the formation of certificates of suitability for APAR cylinders which are received by ship owners who inspect APAR cylinders at the company the practitioner works for.
