

ABSTRACT

The Influence of Debt to Equity Ratio, Current Ratio, and Return On Assets on Price to Book Value In the Infrastructure Sector Listed on the Indonesian Stock Exchange

Connie Jessie Rassana

Management Study Program Student, Pembangunan Jaya University

This research aims to determine the effect of Debt to Equity Ratio, Current Ratio, and Return On Assets on Price to Book Value in infrastructure sector companies listed on the Indonesia Stock Exchange in 2019 - 2022. The variable used in this research is Debt to Equity Ratio (X1), Current Ratio (X2), Return On Assets (X3) and Price to Book Value (Y). The sampling technique used in this research is purposive sampling technique. The data analysis technique used in this research is a panel data regression model using evIEWS 12 software. The results of the research show that the Debt to Equity Ratio, Current Ratio and Return On Assets have a significant positive effect on Price to Book Value.

Keywords: *Debt to Equity Ratio, Current Ratio, Return On Assets, Price to Book Value, infrastructure*
