#### REKAP PERCAKAPAN BIMBINGAN

**Judul Tugas Akhir** : Mekanisme Pelayanan Informasi Otomatis berbasis Chatbot Menggunakan Metode Graphmaster Pattern Matching

**Sesi / Bahasan** : ke-1 / Selamat Pegi Bu Safitri, Saya ingin mengajukan bimbingan online terkait Revisi yang tertera pada Evaluasi Proposal Tugas Akhir yang sudah di berikan. Untuk point 1-4 sudah saya kerjakan pada dokumen, dan point 5-6 masih dalam tahap pengerjaan. 1. Tambahkan teori pengembangan sistem seperti waterfall, agile, scrum dll pada bab 2.2. Tambahkan teori perancangan sistem seperti teori UML (Use Case Diagram, Activity Diagram, Sequence Diagram dan Class Diagram) pada Bab 2.3. Tambahkan teori pengujian sistem seperti Black Box dan White Box pada bab 2.4. Tambahkan penjelasan metode penelitian seperti metode pengumpulan data, metode pengolahan data, metode analisis data, metode pengujian data, dan metode penarikan kesimpulan pada bab 3.5. Tambahkan penjelasan lingkup sistem chatbot yang akan dikembangkan seperti jenis layanan, bahasa layanan, teknik pengenalan pola, dan proses penyajian hasil. 6. Kembangkan sistem baru yang di dalamnya diterapkan chatbot Terima Kasih.

**Buyer Message:**  
Hello! Looking for my first fiverr commission, saw your art and it looks rad. I was wondering what the cost would be for a desktop background picture (2560x1440) and maybe for my new Twitch account. I love the art style you used on your first example (the guy with the headphones on his laptop). I also like the skin tone you used for him. Attached John Mayer picture as a main reference image, with that same simple background. I'd like my eyes open. Also, a small, closed mouth smile (like the commission you did for chancelornice). Instead of 'SOB ROCK' on the sweater, have it say 'JUSTRAY'. I'd like to keep that same simple black background with the white/purple/blue lines. The attached image hair.jpg is most similar to mine except I have black hair. I think it would look best with the long part facing the camera. I also use Shure SRH440 headphones, so it would be cool if you could add the small red detail. I also added URLs if the images don't load for some reason. Thank you, please let me know if you need any more clarification on anything!

Hello! I was looking at your bust-up/halfbody gigs here: <https://www.fiverr.com/comator/make-advanced-live2d-vtuber-character-models> and saw you listed you could do Humans/Mechas. Would you be able to do something like the attached images? My character concept is an AI/Robot. The idea would be for the helmet/face to be super smooth/black, with light blue "dot matrix" style eyes and mouth. The mouth and eyes could still be detailed, just as if they were made up of large dot matrix pixels. (They don't have to be single line emojis or anything, the "dot matrix emoji" image is just for reference of something being projected on the front of the helmet.) In general I want the "Face/Helmet" to be closer to the design in the "Unknown.png" image, but much more streamlined so it's proportioned more like it is directly the person's head and much smoother, and less like a helmet on someone's head with sharp edges on the glass. I am already a streamer, and I currently don't do face cam, but I do use an audio visualizer to interact with chat, you can see an example in my youtube intro here: <https://www.youtube.com/watch?v=3xDNOUYgpR4>. It'd be neat if that design could be replicated on the "ear light rings" as seen in the Unknown.png (although they should probably be more flattened) Overall color scheme would likely match my channel logo (also attached), while I have ideas for other clothing/designs/etc (more like biker protective gear and less like armor/robot bodies). I wanted to reach out to see how feasible the above idea was first. Is this something you think you could build and rig a model for? Budget wise I can likely afford the gigs listed on the gig page linked above, although if extras are needed I can talk through that more as well. I greatly appreciate your time, and any information you can provide. Have a great weekend!

Hello,

Per our conversation, I would like to request a side profile of the character model you created for me. Attached the model in the files below. This is for a custom cosplay helmet I'm getting made of my character so I can go to conventions. The designer is asking for a side profile like the other reference image attached. Full side profile would be greatly appreciated. Thanks!

Thank you so much! I need this character to look absolutely stunning and so excited to get this done! My character is female with a cute bear hoodie dress that is amethyst in color and a cute white teddy bear that my significat other will voice so he will need basic animation on my character. I would love for her to be sitting on a crystal throne that is purple and blue tones together. I would need the girl to be able to track with facerig and myself.

Hello, How are you ? I want to start a youtube channel in the niche of study video. Can you provide me the kind of visuals from the lofi girl channel ? <https://www.youtube.com/watch?v=DWcJFNfaw9c> My second question is about the files format. You say Png or jpg but I want the 30 seconds video animation just like the slider on your page. Best regards Hermann

Hi thank you for contacting us!

**Me** 13 Feb 2022, 9:20  
oh about that we can do with a custom order. We will give you the video format for this project. for details, can we get it first? Like character briefing, background, animation, etc.

**Hermann** 14 Feb 2022, 22:19  
Hi,  
Character should be african teenage girl. For the background, the scene should take place in a library. The girl is studying on a table. There are books and a laptop on the table. The table is next to a Bay window and a view on a garden. Animation is simple : the girl is typing on her laptop.

**Hermann** 14 Feb 2022, 22:19  
And it is raining outside

**Hermann** 14 Feb 2022, 22:20  
last information : the scene happens in the morning

Hello, and pleased to meet you. I am interested in your Basic package for the design and rigging of a vtuber avatar. I have attached files of the character that I like to use for this project. I'll be streaming FFXIV, and would like to work with you on this! Is there a possibility of adding more than the 3 default expressions as well? Thank you in advance! Regards, Edward V.

Hi Sir, thank you for contacting us!  
Glad to hear that, of course we can make characters along with rigging according to the attached file. We will give some sample styles from our artist.

And yes, if you want to add more than 3 expressions, you can mention them and we'll add them to the list.
